

MONDAY

1. What is the time?

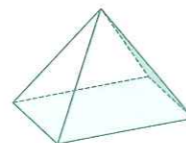

2. $15 + 15 =$

3. Shade $\frac{3}{6}$.

4. $50 + 70 =$

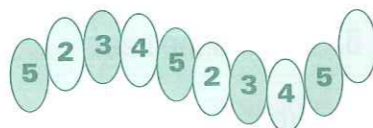

5. How many faces?

6. What is the perimeter of a square with 4 cm sides?

7. $100 - 35 =$

8. $650 + 150 =$

9. Complete the sequence.

10. $17 - 7 =$

11. Tick the two congruent shapes.

12. $3 \overline{)66} =$

13. What is this shape?

- ☐ a quadrilateral
☐ a quadribicycle
☐ a quadratron

14. 1 L = mL

15. $18 < 13$ ☐ true ☐ false

16. 1 kg = g

17. If you ate 9 pancakes each day how many pancakes altogether after 4 days?

18. $3 + 7 + 3 + 7 =$

19. How many faces are on a cube?

20. $9 \times 8 =$

TUESDAY

1. What is the time?

2. $3 + 9 =$

3. If 10 chickens laid 3 eggs each day how many eggs per day?

4. $\$1.00 - 55c =$

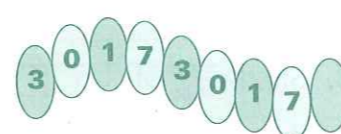

5. $3 \overline{)93} =$

6. Tick the direction from A to B.

7. $2^2 = \times =$

8. Complete the sequence.

9. $12 + 12 + 12 + 12 =$

10. Write five thousand, five hundred and forty-five as a numeral.

11. The date is 17 March. What will the date be in one week?

12. Measure the line AB.

cm

13. In 965, what is the place value of the 9?

☐ 100s ☐ 10s ☐ 1s

14. VI (Roman numeral) =

15. Round 651 to the nearest 100.

16. $4 \times 20 =$

17. Is 6 symmetrical?

18. $35 + 25 =$

19. 5 cm = mm

20. $500 - 90 =$

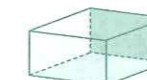

WEDNESDAY

1. What is the time?

2. $5 + 7 + 4 =$

3. Name this 3-D shape.

4. $8 + 9 =$

5. Write nine hundred and four as a numeral.

6. $4 + 4 + 4 + 4 =$

7. How many minutes are in one hour?

8. 30, 35, 40,

9. How many faces are on a triangular prism?

10. Double 18.

11. Would you be more likely to buy a kilogram or a tonne of sausages?

12. What position is F in the alphabet?

13. 1 km = m

14. $\$100.00 - \$65.00 =$

15. $450 + 150 =$

16. Name this 2-D shape.

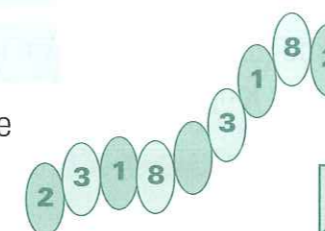

p llelo

17. $200 - 20 =$

18. $24 \div 3 =$

19. $8 \times 50 =$

20. Complete the sequence.

THURSDAY

1. What is the time?

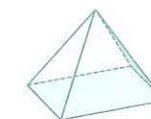

2. $7 + 7 =$

3. $19 + 5 =$

4. Is T symmetrical?

5. $50 - 7 =$

6. Name this 3-D shape.

7. $130 - 70 =$

8. 2, 8, 14, 20,

9. $\$1.00 + \$2.75 =$

10. Name this 2-D shape.

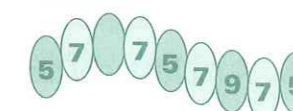

11. Round 960 (nearest 100).

12. $10 - 6 =$

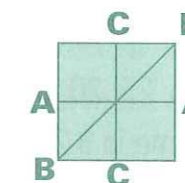

13. $4^2 = \times =$

14. Complete the sequence.

15. $4 \times 6 =$

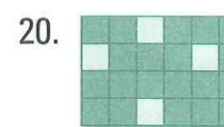

16. Trace over the vertical line.

17. $6 \times 8 =$

18. Would you buy a kilogram or a litre of milk?

19. $36 \div 6 =$

Shaded area = squares
